Annual Educational Conference

What just hit us? The First 100 Days

We have never seen a US presidency in its first 100 days so overwhelmed by controversy and disorganized. At the same time, the threats to the labor movement – and democracy – have never been so great.

This year at Gompers presenters will explore the big issues that are causing shock waves, and also look at what is happening behind the scenes to worker rights, immigration, tax policy and more. How should labor navigate this new landscape? How do we stay united and win?
